

# Level 3 Digital Technologies 2023

## 91909 Present a reflective analysis of developing a digital outcome

### PRACTICE ASSESSMENT

Achievement Criteria		
Achievement	Achievement with Merit	Achievement with Excellence
Present a reflective analysis of developing a digital outcome	Present an in-depth reflective analysis of developing a digital outcome	Present an insightful reflective analysis of developing a digital outcome

**Answer ALL parts of the assessment task in this document**

You should aim to write **800 - 1500 words** in total

You must write your answers in the boxes provided and may access your project for reference only. Internet access is not permitted at any point during this assessment.

**Save your finished work as a PDF file** and submit it through the Google Classroom assignment

This work must be your own and by saving and submitting this work, you are declaring that this is your own work.

## **INSTRUCTIONS**

The task in this assessment requires you to discuss a digital outcome you developed in the past 12 months.

During this assessment, you may access your digital outcome for reference only. No other internet access is permitted.

Read all parts of the task before beginning. Do not repeat information in different parts of the task.

## **TERMS USED**

Digital outcome:

An outcome that has been developed through the use of a digital tool.

Digital component:

A component that is used to develop the digital outcome, such as the source code, 'layers' of an image, nodes, etc.

Development process:

The steps followed throughout development to create a digital outcome

Characterisitics:

The features/parts that make up your outcome and make it unique

## ASSESSMENT TASK

(a) (i) Describe your chosen digital outcome and explain its main characteristics

(ii) Explain how decisions you made in the development process are linked to the characteristics of your chosen digital outcome, referring to:

- the selection of the tools and techniques used to develop the outcome
- the influence of stakeholder feedback

- (b) (i) Explain how decisions you made affected the development process of your chosen digital outcome’s characteristics, referring to:
- the selection of the tools and techniques used to develop the outcome, AND
  - the influence of stakeholder feedback

- (ii) Explain how the development process of your chosen digital outcome was guided by the new knowledge and skills you gained during that process

**Reflective analyses**

In this section you are required to write critical evaluations of both the positive aspects and potential issues with your development process and your outcome. Expanding on these critiques, you will provide clear suggestions as to how you might improve both.

- (c) (i) Explain both positive aspects and issues caused by specific decisions you made in your development process

- (ii) Explain both positive aspects and potential issues of your outcome which were caused by specific decisions you made.

- (iii) What relevant and important changes could have been made to improve your development process? You must justify your response.

- (iv) What relevant and important changes could have been made to improve your outcome? You must justify your response.
